What is **WILP** ?

(Work Integrated Learning Programmes)

BITS Pilani is an institute of eminence, shaping leaders who lead the Indian industry.

In the current landscape, there is a growing demand for a highly empowered workforce capable of thriving in our ever-changing world seizing remarkable opportunities along the way. These agile and future-ready stakeholders not only stay in sync with the swiftly evolving business environments but also possess the proficiency to harness emerging technologies, using them innovatively to generate groundbreaking solutions.

The leaders in their respective fields who don't just build things well, but their knowledge builds up a culture of seeking excellence in every team, in every field. They have the potential to lead businesses and industries to new possibilities. Such individuals are called Pathfinders. BITS Pilani (Work Integrated Learning Programmes) are designed to transform their workforce into Pathfinders, and we have been helping create them since 1979.

For over 44 years, we have perfected the science of shaping pathfinders who have steered industries and prestigious organizations towards innovation and change. Our Work Integrated Learning Programmes bring that rich legacy to organizations willing to become agile optimists of their industry. BITS Pilani (WILP) excels in shaping Pathfinders, who are pioneering a new era of change by exploring their way through uncharted territories to make an impact.

Fully understanding the Industry needs & organization goals, the programmes will harmonize with forthcoming business objectives within the rapidly changing business landscape

Sectors We focused

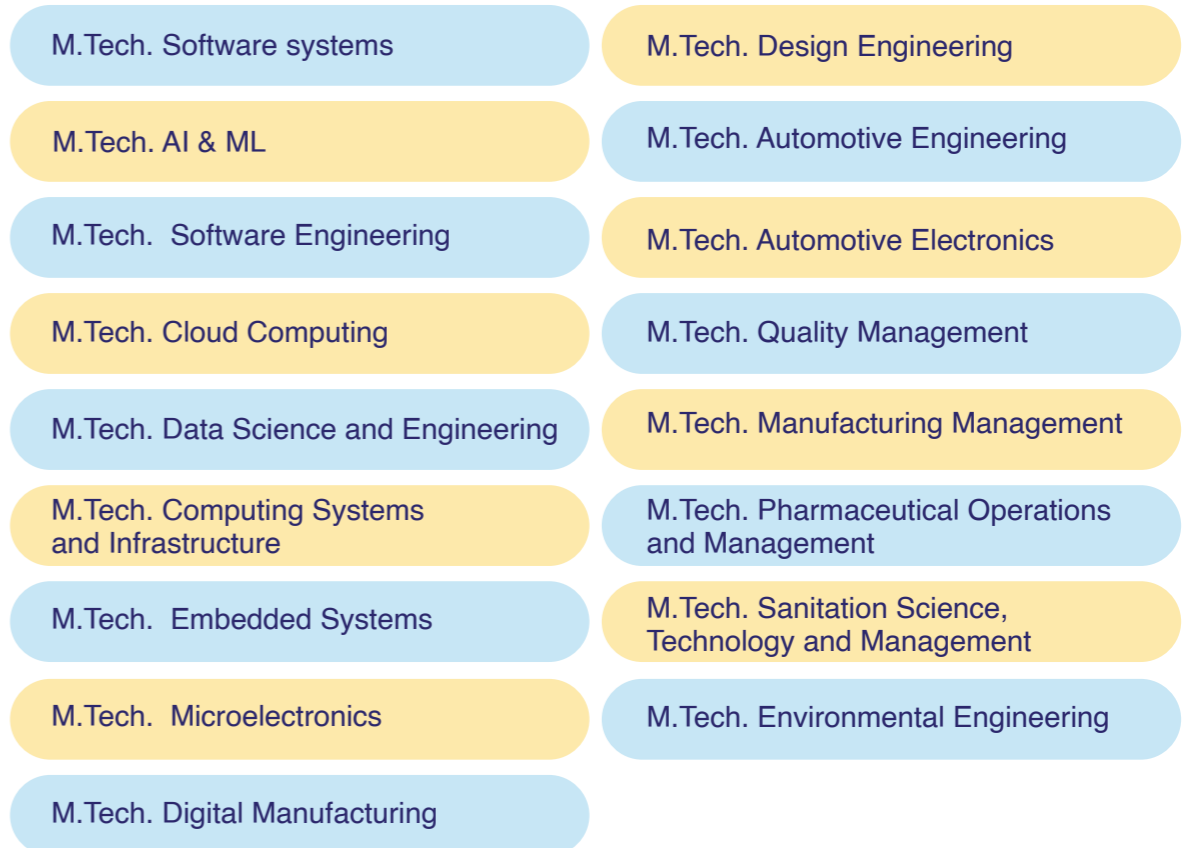

Programmes offered

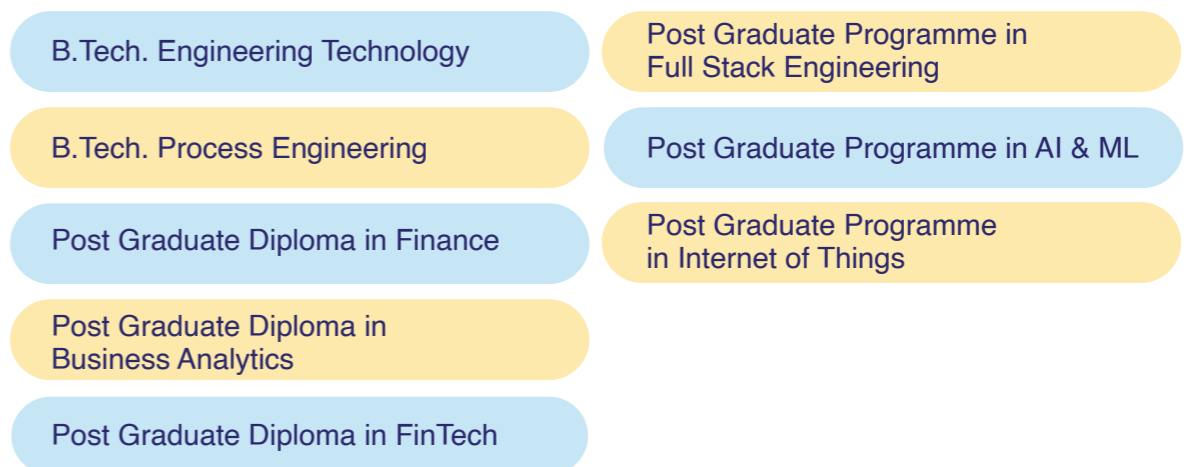

MBA | M. Sc.

M.Tech.

B. Tech. | PG Diploma | Certifications

Partner Experiences

Graduates and engineers who join us often need reskilling and upskilling, and BITS Pilani Master's Program gives us an opportunity to upskill our employees.

- EVP, HCL Technologies

Our employees really like the combination between theory at BITS and practical SOP inside SAP. They stay with SAP after their graduation, perform very well and are a great success for SAP.

- Global Head of Vocational training, SAP SE

BITS Pilani Programme is a fantastic initiative for both the organization and the candidate. Candidate is learning so many things, doing higher studies and motivating people around them while the organization is gaining so much because they are offering so many projects related to chronic problems such as safety, quality and productivity – things that we, as a company, are facing daily.

- GM- Human Resources, Tata Motors

BITS Pilani WILP is a coveted Programme at Cummins India as it enables employees to fulfil their dream of acquiring an engineering degree from one of the top institutes in India without taking a career break. The Programme also provides exposure and visibility that adds immense value to their personal and professional development

- HR Leader, Cummins India

Learner Experiences

I was looking for a program where I could learn multiple things relevant to my work profile. I then heard of BITS Pilani WILP. My overall journey with WILP has been amazing. I've learned a lot and now I am more confident at my workplace. I am able to explain complex things to people easily, which is ultimately helping my entire team to perform better.

Prashant Thakre

Technical Architect, GE Healthcare
Participant of M.Tech. Data Science and Engineering

Pursuing this programme from BITS Pilani WILP turned out to be the best career move so far. This course provided me the freedom to take online classes without a career break and mentors were always so approachable and some of the best in the industry. I also got the opportunity to explore concepts that I never even heard before.

Rakesh Kumar K

Technical Lead, Bosch Global Software,
M.Tech Automotive Engineering

My goal was clear: to stay updated about the technology industry and apply my learnings to my workplace. This programme curriculum, Virtual & Remote Labs, has given me great experience in learning new technologies and given me a professional edge on the Industrial fourth revolution, which helps me to gain an upper edge in my work area. I would highly recommend it to working professionals.

Niranjana Bokil

Head Of Operations (Automation & Engineering Projects
Execution) at Signode, M.Tech Digital manufacturing

MBA in Business Analytics from BITS Pilani WILP opened me to new insights and learning perspectives. It challenged me and covered all the crucial foundations that made it an excellent career choice.

Vikas Sharma

DY. General Manager,
Gail India, MBA in Business Analytics
