BITS Pilani:

Since 1964, BITS Pilani has been a pioneer in higher education, recognised as an Institute of Eminence by the UGC and Ministry of Education. Known for academic excellence, it has grown into a globally respected institution and was the first Indian university to establish an international campus in Dubai.

Welcome to BITS Pilani's Work Integrated Learning Programmes (WILP)

At BITS Pilani WILP, we blend education with professional growth through tailored programmes aligned with both business and learner goals. Professionals gain new skills, adopt best practices, and make a meaningful impact, while organisations benefit from increased productivity, retention, and a motivated workforce. Our UGC-approved programmes offer real-world, practical knowledge, ensuring lasting success.

MBA in Finance

Live Interactive and Engaging Learning Methodology

Live Learning

Live sessions for each course

32 hours of live instruction of each course on weekends in an interactive mode.

Faculty-guided | hands-on learning

Solve real life case studies, assignments & more and receive feedback on the same from the faculty members.

Experiential Learning

Experiential Learning Centres

Learning centres at major cities will go live in 2025 that will have physical labs and faculty members at one place for learners to conduct experiments & practical.

Campus Immersion Programme

Opportunity to visit the BITS campus to learn, experience labs, network with peers and get mentored by BITS leadership.

Project Based Learning

Final Semester Project

Learners pick project from their workplace or industry dissertation to apply their learning and suggest improvements.

Develop Problem Solving Skills

Identify, analyse, and effectively find solutions utilising critical thinking & analytical reasoning.

Self-Learning

Flexible learning with access to digital resources

Learners can access e-learning content, recorded sessions, and assignments on our LMS anytime, anywhere.

Library access to books & journals.

Learners get subscription to the world's largest collection of eBooks and other reading resources through OpenAthens.

Flexible Learning

You can take a break to attend personal or professional commitment. Come back & join from where left (Please take advice from your programme co-ordinator on details).

General Management Electives

Leadership and Managing Change

Foundations of leadership and leadership styles, Emotional intelligence and self-awareness, Leading high- performing teams, Building trust and influencing without authority, Change management models (Kotter's 8-step, Lewin's model), Leading through uncertainty and crisis Organizational culture and leadership alignment, Resistance to change and overcoming barriers, Communication strategies during change, Stakeholder engagement and change readiness, Adaptive leadership and agility, Leading transformation in digital and global contexts, Role of leadership in innovation and growth, Developing leadership presence and authenticity, Case studies on leadership and organizational change.

Project Management

Project Life Cycle, Drivers of Project Management. Project Selection - Portfolio Management System, Selection Criteria, Managing the Portfolio System. Organization: Project Management Structures and Organization Culture. Investment Criteria - NPV, IRR and Payback period, Project Cash Flows. Defining the Project - Project scope, Work Breakdown Structure, Process Breakdown Structure, Responsibility Matrices. Estimating Project Times and Cost- Top-down and Bottom-Up estimates. Developing a Project Plan - CPM/PERT, Scheduling Resources and Costs, Resource Levelling, Reducing Project Duration and costs. Progress and Performance Measurement and Evaluation - Earned Value Analysis, Forecasting Final Project Cost. Leadership and Managing Project Teams- Managing vs. Leading a Project, Managing Project Stakeholders, Social Network Building, Five Stage Team Building Model. Outsourcing - Best Practices, Art of Negotiating. Managing Risk - Risk Management Process, Contingency Planning, Handling Risks, Change Control Management. Project Closure - Wrap-up closure activities, post implementation evaluation. International Projects - Cross-Cultural Considerations, Selection and Training for International Projects. Agile Project Management - Traditional v. Agile PM, Agile PM in Action: Scrum.

Decision Analysis

Introduction to quantitative techniques and statistics, Decision making, intelligence design and choice phases, basic theory of decision making under uncertainty; decision trees, qualification of judgments and preferences, Bayes theorem, the structuring of complex decisions, and multi-attribute utility theory. Statistical estimation and forecasting.

Data Visualization and Communication

Need for visualization, Presentation and visualization of data for effective communication, the importance of context and audience, choosing an effective visual, Visual Perception theories, Displaying relative performances, Visualizing survey results, Visualizations for Ranking and Branching, Visualizations for parts of a whole, Visualizing regression and clustering, Visualizing Qualitative Data, Visualizing Trends, Tree-based visualizations, Visualizing Geo Data, Techniques for visualization of high dimensional data & discovered patterns, Create interactive Dashboards and Stories.

International Business and Trade

Introduction to international business and globalization, Key differences between domestic and international operations, Classical and modern trade theories (e.g., Comparative Advantage, Porter's Diamond), Foreign Direct Investment (FDI) and Multinational Enterprises (MNEs), Global business environment and PESTLE analysis, Cultural dimensions and ethics in cross-border business, International market entry strategies (exporting, licensing, franchising, joint ventures, wholly owned subsidiaries), Role of global trade organizations (WTO, IMF, World Bank) and regional agreements, Free trade vs protectionism, Basics of international financial management, exchange rate risk, and global capital flows, Global supply chain and international sourcing, International marketing and HRM strategies, Cross-cultural negotiations and communication, Impact of technology, digital transformation, and geopolitical risks on international business.

Entrepreneurship and New Ventures

Innovation, Entrepreneurship and Intrapreneurship; Creativity & Lateral Thinking; Design Thinking; Effectual Thinking; Market Validation; Development and Evaluation of Business Idea; Introduction to Business Model Generation; Developing Lean Business Model for the Business Idea; Developing Prototype and Evaluating assumptions in Business Model using prototype cheaply; Presentation of Business Model; Raising Finance; NDAs and Term Sheets; Exit Strategies; Scaling up the venture; Developing Business Plan; Business Fair.

Entrepreneurial Finance

Principles of entrepreneurship, Changing landscape in raising capital, characteristics of the venture capital and private equity markets, specialized services provided by VC's and PE funds, stages in VC investing, deal flow, deal sourcing, evaluation, risk return trade off of VC / PE investments, valuation of VC / PE transactions, structuring and execution of deals, exit options, distributions, Early stage funding,

Integrated Financing tech Solutions - Case Studies, Legal, Regulatory, Capital and Investment for new businesses, Enterprise Innovation.

Advanced Marketing Management

Market Research, Consumer Behavior, Market Planning and Management, Marketing Strategy, Development of new market offerings, Personal Selling and Direct Marketing, Business to Business Marketing, Digital Marketing, Marketing Analytics, Service Marketing, Socially Responsible Marketing.

Strategic Human Resource Management

Context of Strategic Human Resource Management - An Investment Perspective of Human Resources Management, Social Responsibility and Human Resource Management, Strategic Management, The Evolving/Strategic Role of Human Resource Management, Strategic Workforce Planning, Design and Redesign of Work Systems, Employment Law. Implementation of Strategic Human Resource Management - Staffing, Talent Management, Performance Management and Feedback, Compensation, Labor Relations, Employee Separation and Retention Management, Global Human Resource Management.

Business Environment, Laws, and Ethics

Overview of Business Environment, Global Business Environment, Fundamentals of Business Law, Contract Law, Business Organizations and Corporate Law, IBC, Sale of Goods Act, Intellectual Property Rights, Competition and Consumer Protection Act, Cyber laws, Alternate Dispute Resolution Mechanisms, Ethics in business decision making, Role of Law in Ethics.

Business Research Methods

Introduction to Business Research, Ethics in Business Research, Types of Research: Exploratory, Descriptive, and Causal; Research Design, Qualitative vs. Quantitative Research, Cross-sectional vs. Longitudinal Studies, Experimental and Non-experimental Research, Case Study and Action Research, Literature Review, Importance of Literature Review in Research, Sources of Literature (Journals, Books, Databases), Identifying Research Gaps, Research Problem Formulation & Hypothesis Development, Sampling Techniques and errors, Data Collection Methods, Types of Scales, Reliability and Validity in Research, Validity of Measurement Tools, Designing Questionnaires, Role of AI and ML in Business Research.

Enterprise Risk Management

Introduction to Enterprise Risk Management (ERM); Need for ERM; ERM Value Proposition; ERM Governance; ERM Standards - The COSO Framework and ISO/IEC 31000:2018; Key Risk categories and Risk dimensions; Fraud risks; Cyber Risks; Compliance Risks; Developing the ERM Framework for the organization: Key Risk Indicators (KRIs); Approach for implementation of ERM Framework; Role of Directors, Board, and Chief Executives in ERM; Case Studies.

Indian Ethos in Management

Indian Ethos, Management Lessons from Scriptures, Work Ethos, Values, Stress Management, Indian Systems of Learning. Modern Approach towards Indian Ethos, Managerial Performance-Indian Context, Era in Knowledge Economy, Learning and Education System in India, Human Values and Its Implications, Work Ethics and Motivation, Value-oriented Holistic Management, Indian Styles of Leadership, Top Leaders as Role Models, Value-based Leadership-Consciousness, Social Harmony and Social Morality, Inspiration on Innovation and Technology Management from Ancient Indian Wisdom, Case Studies.

Management Control Systems

The nature and types of management control systems, organizational behaviour and strategies, goal congruence, responsibility centres - revenue, expense and profit centres, transfer pricing, planning and budgeting for management control systems, analyzing financial performance - variance analysis, ROI vs RI vs EVA, holistic performance measurement: importance of non-financial measures.

AI for Competitive Advantage

Artificial Intelligence (AI) for Competitive Advantage is a course designed to provide learners with insights into established and emerging developments in AI, focusing on big data, machine learning, Generative AI, and the operational changes AI brings to various industries. Key topics covered include: AI for Competitive Advantage Introduction, Big Data Overview, Big Data Analytics, Data Management Infrastructure, Extracting Intelligence from Big Data, Introduction to Artificial Intelligence, A Detailed View of Machine Learning, Specific Machine Learning Methods: A Deep Dive, Business Applications of Machine Learning and Personalization, Personalization: Impacts on Markets, Personalization: Addressing the Challenges, AI/ML Applications, Challenges to Adoption.

Technology Management in Business

Overview of managing innovation and emerging technologies in business, Creating competitive advantage through digital tools and information systems, Trends disrupting and reshaping industries, Strategic planning for R&D and innovation lifecycles, Forecasting, evaluation, and adoption of new technologies, Integration and absorption of digital solutions into business operations, Managing technology transfer, intellectual property, and regulatory compliance, Sustainability and resilience in tech-enabled environments, and addressing strategic and operational challenges in innovation-led transformation.

Assessment Methodology

Continuous Assessment

Quizzes, assignments, mid-semester and comprehensive exam

Case studies & Assignments

Real-world cases used as in-class problem-solving exercises

Dissertation/ Project Work

- Apply learnings to a complex, real-world project
- Demonstrate understanding of learnt concepts

Mode of Examination

- Applicable for students admitted from January 2026 batch onward.
- Semesters 1–3 include mid-semester and comprehensive exams for each course.
- In-person exams mostly held on Friday, Saturday or Sunday at designated centers.
- Quizzes/assignments conducted online via Learning Management System (LMS).
- Semester 4 includes Dissertation/Project Work as per guidelines.

Exam Centre for Indian Students

Students can take exams at any of our **36 designated centres**, including:

BITS Pilani WILP's online lectures are as good as face-to-face classroom lectures. This degree programme from BITS Pilani WILP helped me to advance my skills in emerging fields of new-age finance and imparted me knowledge that made me feel more confident with challenging projects at my workplace.

Shashi Bhushan
Project Manager, GE

I have gained a lot through this program. I am now in a zone where I am comfortable challenging others, I feel I am empowered with the right knowledge to do my job better with BITS Pilani WILP's degree programme

Amruthavarshini HK
Senior Test Engineer

The programme from BITS Pilani WILP has been nothing short of remarkable for me. From the moment I entered the program, I was impressed by the depth of knowledge and expertise that the faculty brought to the table. I found this programme quite aligned with my current job role and equipped me with the right administrative and management skills.
